

VISION

Advance society through the discovery and integration of applied computing technologies that leverage the power of information

MISSION

We empower individuals to become passionate, solution-minded Information Technology professionals by fostering: continuous innovation, research, leadership development, interdisciplinary problem solving and real-world experience

OBJECTIVE

Provide Highest Quality Educational Opportunities For Students

STRATEGIES

Become A Leading Expert In 2-4 IT Areas Regionally And Nationally

Become A Center Of Innovation For Information Technology Education Regionally And Nationally

Be A Great Place To Learn And Innovate

Increase Awareness Of The Information Technology Discipline

Increase The Quantity And Quality Of Collaborative Relationships Within And Outside The University

P r i o r i t i e s

- Define and evolve areas of expertise
 - Cybersecurity
 - IT Sustainability (Virtualization, Cloud, Big Data)
 - Mobile & Social Networking Development
 - Game Development (Entertainment, Educational, Immersive Environments)
 - Build interdisciplinary collaborative relations with other disciplines and colleges inside and outside UC aligned with areas of expertise
- Develop and implement research agenda
 - Build research teams around the areas of expertise
 - Improve the quantity and quality of publications

- Create graduate programs
- Increase accessibility through online delivery of courses and programs
- Evolve and diversify programs for non-majors such as the IT Minor, IT certificates and IT general education offerings
- Develop ongoing pathways/ collaborations with regional, national and international institutions
- Achieve ranking in the top 10 undergraduate programs
- Establish centers of excellence in the areas of expertise
- Establish programs to empower students to earn major industrial certifications related to the strategic areas

- Attract and retain best faculty
- Build an engaged Alumni network
- Develop and increase scholarship funds
- Develop programs for corporate sponsorships
- Increase the participation of faculty members in personal development activities.
- Develop 21st century IT leaders
- Increase the level of academic achievement of students (Raise the bar). For instance:
