University of CINCINNATI

SCHOOL OF HUMAN SERVICES

Be the CHANGE

Change Begins Here!

You've laid the foundation for your career; you've gained some professional experience; you've learned from your leaders and mentors; you want more for yourself and your family. Earning an advanced degree will not only provide you with more career opportunities, but it will give you the credibility and knowledge to change the industry.

The College of Education, Criminal Justice, Human Services, and Information Technology (CECH) can open doors of opportunity in several fields of study and help you achieve your goals.

You will learn from evidence-based research with nationally recognized faculty, committed to advancing your skills and expertise, while taking you beyond the classroom to improve outcomes for the communities we all serve. Your graduate program will empower you with the knowledge and skills to have a positive impact on the individuals, communities, and organizations you serve in your future professional roles.

Academic Programs to Support your Interests and Career Goals

With eight master degree options (onsite and online), three doctoral programs and a professional certificate, you're sure to find the right program for you in the School of Human Services. Whether you are striving to take your career to a new level or seeking a career change, the unique opportunities that define our School of Human Services await you.

Student-Centered Community

Join us, and you'll find yourself a part of a community where learning and teaching blend seamlessly with research and practice in an organization making a difference in the Greater Cincinnati area and beyond. Our faculty and staff are committed to helping you achieve your educational goals, explore new opportunities, and discover research interests.

Community is at the heart of all we do. It's who we are.

Be
Bold

A graduate degree from the University of Cincinnati can be just the credential that makes you stand out. Whether you want to enhance your skills or expand your expertise, UC offers many ways to use your intellect to follow your passion.

From our nationally ranked programs to our renowned faculty, CECH can offer you an educational experience that goes beyond the classroom. Our graduate programs incorporate experiential learning and research opportunities, many of which can provide funding for tuition costs.

Learn in a traditional classroom or online. CECH offers the large number of high-quality online graduate programs at UC.

Be EMPOWERED

Top 10 **in the world** for the total number of students that pass the BCBA Examination on their first attempt.

Make A Difference

The School of Human Services offers a diverse set of graduate programs all focused on solving real-world problems and improving outcomes for individuals and organizations. Our graduates can apply research and best practices attained from their curriculum to provide services that will benefit individuals holistically.

You will participate in research opportunities with our nationally recognized faculty, including opportunities to publish and present research. Also, our programs use research-based practices to best prepare students to become leaders in their selected disciplines, such as behavior analysis, counseling, health education, and school psychology.

Master's Programs

Behavior Analysis (Online) Prepare to effectively change behavior, improve lives in a career that is rapidly growing. Program graduates are prepared to work in clinics, educational settings, community centers, non-profit, corporate organizations, and clients' homes.'

Community Health and Prevention Science This program will prepare students to engage in theory, research, and practice in prevention science as related to community health and human services.

Health and Wellness Management This program focuses on preparing professionals to improve and support health and wellness through implementation of evidence-based strategies for behavior change and mobilization of solutions for preventing chronic disease.

Mental Health Counseling Trains counselors for employment in community health agencies, mental health and private practice settings. Graduates become trained counselors who function as wellness-oriented mental health professionals, working within communities to improve individuals and families' lives.

Public Health This multi-discipline degree will prepare you to be a public health educator, applying research and best practices toward health policy and practice.

School Counseling Prepares students to become professional school counselors trained to positively impact the school environment by serving as social justice advocates and providing equitable services to all students, through implementation of a comprehensive school counseling program.

School Psychology This program prepares highly competent school psychologists by preparing students to make significant contributions to educational systems that improve children and families' critical outcomes through up-to-date and research-based practices.

Sport Administration (Online) This program allows graduates to dive deeper into their knowledge of the sport industry by exploring various career occupations ranging from athletic administration, marketing, business development, sport facility operations and more. Our program is affiliated with the National Interscholastic Athletic Administrators Association (NIAAA), where you will have the opportunity to complete the NIAAA certification program.
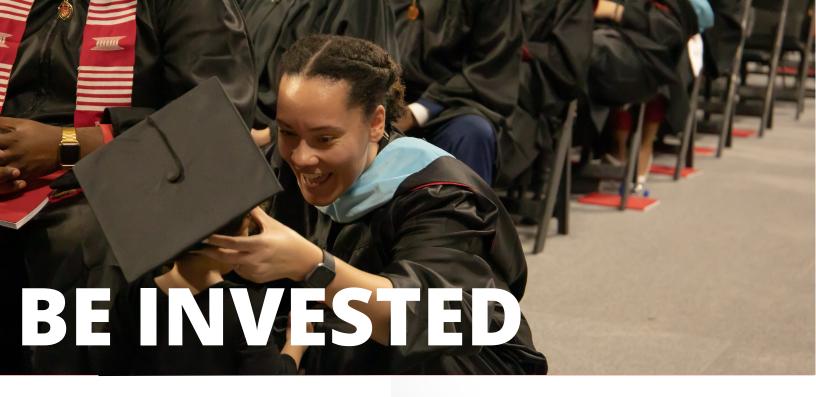

Doctoral Programs

Counselor Education You will become skilled in research, teaching, and service to be a leader in the counseling profession focused on prevention and ecologically-based practice. Related areas of preparation include prevention, substance abuse counseling, and research methods.

Health Education Lead in helping individuals understand health behavior and foster the adoption of research-based practices by studying in a collaborative environment with nationally recognized faculty researchers.

School Psychology Prepare to be a school psychology leader through comprehensive coursework, extensive and integrative field experiences, a year-long internship, and extensive research. Our faculty will train you for either an academic career (university research and teaching) or to become a leader within the field (supervisor, systems change focus).

Kelsey Smothers
Health Education

"The faculty are the very reason I chose this program. They are supportive and make me excited about working in the health field, so I can assist communities in adopting healthy initiatives.

BE INVESTED

Invest in yourself. Upgrade your Bearcat resume with a Graduate degree at UC! Because our programs incorporate research and experiential learning experiences, our students are more than prepared for the workforce once they graduate.

Before you graduate, you'll:

>> **Build a resume** that sets you apart
>> **Make connections** that can lead to job offers
>> **Learn what you like** most about your field
>> **Gain the confidence** that only experience provides.

Cody Sáraco-Polner
Sport Administration

Everyone of my faculty has not only been welcoming, incredibly Knowledgeable, and inclusive, but they have gone above and beyond what they should do to help students network, meet other professionals in the field, and locate experiences within my selected discipline.
