# Human Development & Community Engagement

The Human Development and Community Engagement program equips students to act as effective agents of change in today's society. Students will collaborate with community programs and non-profit agencies in urban city centers that initiate social change and actions for communities, families, and individuals.

Through strong theoretical foundations as well as practical and authentic learning experiences, students gain the skills needed to serve communities, including under-represented populations. Students will be prepared to work in a variety of diverse settings that can include:

- Advocacy and non-profit agencies
- Government institutions
- Community outreach programs
- Public Administration
- International Relations
- Child & Family Services
